

BROKEN CLUB HITS PADGHAM

ALFRED PADGHAM, open champion in 1936, had a very trying experience when playing on the Hesketh course in the first round of the Dunlop-Southport £1,600 professional golf tournament yesterday.

Driving at the eleventh hole his club broke and the club-head swung round, hitting him on the back of the head.

He was temporarily stunned, but recovered and with a spare driver completed the round in 76.

Three men distinguished themselves by leading the field. A. E. Bignell (Ormskirk) had 72 at Southport and Ainsdale, and Arthur Lacey (Berkshire) and Norman Quigley (Windermere) each had 71 at Hesketh, where the par is two strokes lower at 73.

The Aga Khan Wins! Turf Romances of the CHOCOLATE

and

GREEN!

The mighty MAHMOUD

ENTRIES for a big race are out. Paper boys are shouting. Paper boys being opened in the streets. Nine out of every ten men scanning them are asking themselves one question: "What has the Aga Khan got in?"

Now we take a magic carpet and fly to a race meeting. Look, there's a man and his wife obviously not "regulars," just out for a day's sport. Let's stand near them. "Read the runners out, dear," says the "better half." "Has the Aga Khan got one running?"

The Aga Khan again. What is there about the Aga Khan or his horses, or both, which at once thrills both professionals and "mug punters"? It's the plain fact that the Aga Khan never has a bad 'un. With almost monotonous regularity the green and chocolate hooped colours flash first past the post. If they're not in the first three, it's almost a sensation

There they go in parade. Teresina, who stayed for ever; Mumtaz Mahal, the flying filly; Cos, Blenheim, Dastur, Bahram, Mahmoud and many others. What memories they conjure up. And now to follow in their footsteps we have Mirza II, Tahir, Yakimour and Dhotti.

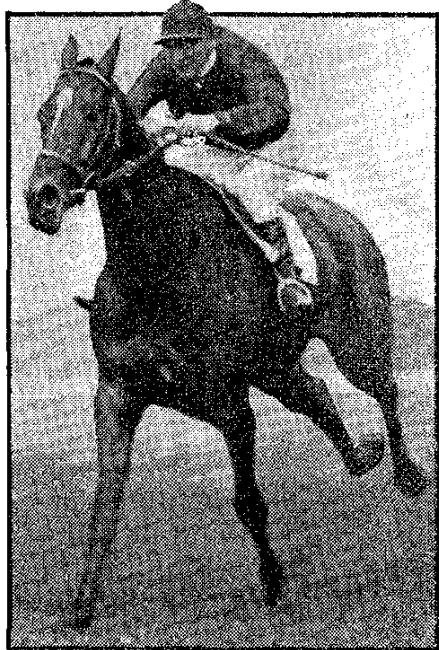

You can have the best of everything, if you have the money to pay for it, say the cynics. Maybe, but money alone has not made this popular Indian ruler the world's most famous owner and breeder.

In 1922 the Aga Khan ran his first horse. In

1924 he had topped the list of winning owners. He has topped the list six times since then, and is the only man living to have won the Derby three times.

A romance of the Turf if ever there was one, and in his book, "The Aga Khan's Horses," Captain R. C. Lyle, equally known to the racing public as a writer and broadcaster, tells the amazing story of the man, who, until 1921, simply had not the time to bother with the Turf.

It is typical of the Aga Khan that when he decides to do a thing it has got to be done properly. When he decided to go in for racing he appointed as his agent shrewd, experienced the Hon. George Lambton, and instructed him

to buy fillies and only take a colt providing it was outstanding. Money was no object.

How well George Lambton did his work! At the Doncaster Sales in September, 1921, he spent 24,520 guineas, nearly a seventh of the total yield from the sales. But he had acquired Teresina, Cos, Mumtaz Mahal, Diophon and Salmon Trout. Each distinguished itself on the racecourse, as the buyer expected, but their successes at the stud could never have been foreseen.

Thanks to the Hon. George's wise choosing, these horses, when sent to the stud which the Aga Khan gradually built up in Ireland, produced the Derby and other big race winners which followed later.

The Aga Khan to-day is one of the few owners who never need buy a horse. His principle of snapping up the best yearlings that

money could buy, putting them to stud and breeding from them has been a paying one.

And he has left nothing to chance with his jockeys. G. Hulme, Michael Beary, Harry Wragg, Fred Fox, Charlie Smirke and Gordon Richards have all ridden his horses to victory. Great horsemen, every one.

The Sheshoon Stud at the Curragh is a wonderful place. When the Aga Khan bought it, it was under 200 acres in extent, but it has grown tremendously since then. Among his first batch of mares to go there were Voleuse and Friar's Daughter—remember them?—both of which are there to-day as also is Teresina.

From Sheshoon have come such good winners as Felicitation, Udaipur, Rustom Pasba, Bahram, Umidwar, Firdaussi, Dastur, Sind, Taj Akbar and Theft.

But all the money spent, all the careful breeding, could never have borne full reward without clever training, and there again the Aga Khan proved that he knew how to pick the right men.

First Dick Dawson, of Whatcombe, who trained for him in his early seasons, and saddled Blenheim, his first Derby winner; now Frank Butters, who sent out Bahram and Mahmoud to win the Epsom classic.

And it is fairly certain that the Aga Khan's successes will continue for a long time to come, for there is no sign of a dropping off in quality of his yearlings. That is news which will delight the little punter, who will always entrust his bets to the green and chocolate hoops.

Romance of R.L. Cup Final

Three days before he plays for Barrow against Salford in the Rugby League Cup Final at Wembley on Saturday, wedding bells will peal for Alf. Marklew, speedy Barrow loose forward. His bride is Miss Gwen Jones, a cinema attendant at Barrow.

Marklew fell in love with Miss Jones when the Barrow team visited the cinema. Wedding over Marklew will join his club-mates at their special training "hide-out" and honeymoon will be delayed until after the final.

Next time the bride sees her husband will be when he plays on Saturday. From a reserve seat she will anxiously hope for her most coveted wedding present—a Barrow win.
